

## REMARKS

### In the Drawings:

This preliminary amendment presents replacement drawings for Figures 4A-7 and Figures 9A-12D. In order to retain all of the content present in the original drawings while meeting margin and font size requirements, most of the replacement drawings split their content across multiple pages, with a layout diagram showing the split.

For example, the replacement Figure 7 splits the original Figure 7 across seven pages labeled Fig 7(A)-Fig 7(G), and also includes a top level layout diagram showing the page arrangement for pages 7(A)-7(G), relative to the original Figure 7. The layout diagrams are labeled with the original figure number consistent with the Brief Description of the Drawings.

## SUMMARY

The Examiner is invited to contact the undersigned attorneys for the Applicant via telephone if such communication would expedite this application.

Respectfully submitted,
